

SircleLam LA-330

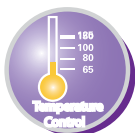

13" Pouch Laminator

Dual Heating System

Back to Front Paper Feed

Support Tray

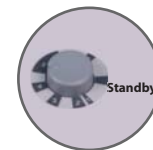

Laminates Photos

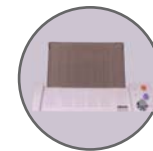

The SircleLam LA-330 is a 13" pouch laminator ideal for any office or production environment. Designed with a dual heating system that features both hot shoe and plate technology, the LA-330 provides a perfect seal for 3-10mil pouches. Its variable temperature control incorporates a hot temperature as well as a cold temperature setting to allow for the lamination of temperature sensitive documents. The back to front paper feed allows for a more efficient and effective lamination process.
